

Packing List

IP Video Phone

Handset

Power Adapter

Handset Core

Assembling the Phone

Assembling the Phone:

SD Memory Card — USB 2.0

Note: Headset is not included, should be purchased separately.

Connect Network and Power:

There are two ways for network and power source connections. You can either connect the phone to the AC Power directly using the power adapter or to a PoE compliant switch or hub. Your system administrator will advise you on which one to use.

Note: If inline power (PoE) is provided, do not install the AC adapter, make sure the Ethernet cable and switch /hub are PoE compliant.

The phone can also share the network connection with other network devices such as PC. Connect the phone's PC port and computer's Network Port together using an Ethernet cable, shown as below:
